Notes to Consolidated Financial Statements

ABC-MART, INC. and consolidated subsidiaries

1. Basis of Presentation and Financial Statement Translation

The accompanying consolidated financial statements of ABC-MART, INC. and consolidated subsidiaries ("the Group") are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards ("IFRS"), and are compiled from the consolidated financial statements prepared by ABC-MART, INC. ("the Company") as required by the Financial Instruments and Exchange Act of Japan. Effective March 1, 2009, the Company adopted the "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements" (PITF No. 18). In accordance with PITF No. 18, the accompanying consolidated financial statements for the years ended February 28, 2013 and February 29, 2012 have been prepared by using the accounts of foreign consolidated subsidiaries prepared in accordance with either IFRS or accounting principles generally accepted in the United States as adjusted for certain items.

In addition, for the convenience of readers outside Japan, the accompanying consolidated financial statements, including the notes thereof, have been reclassified and contain additional information which is not required under accounting principles generally accepted in Japan.

As permitted under the Financial Instruments and Exchange Law of Japan, amounts of less than one thousand yen have been omitted. As a result, the totals shown in the accompanying Consolidated Financial Statements do not necessarily agree with the sums of the individual amounts. Certain reclassifications have been made to prior year balances in order to conform to the current year presentation.

2. Summary of Significant Accounting Policies

(1) Basis of Consolidation

The accompanying Consolidated Financial Statements include the accounts of the Company and 12 subsidiaries (5 subsidiaries as of February 29, 2012) with an exception of a non-consolidated subsidiary due to immaterial impact on the consolidated financial statements. The investment in the non-consolidated subsidiary is not accounted for by the equity-method because of the immaterial effect on the consolidated financial statements in aggregated amount of net income and retained earnings, and therefore carried at cost (\forall 84,175 thousand as of February 28, 2013 and February 29, 2012).

During the year ended February 28, 2013, the Company acquired 100% of shares of LaCrosse Footwear, Inc. Therefore, LaCrosse Footwear, Inc. and its 6 subsidiaries have been included in scope of consolidation.

The year end at ABC-MART KOREA, INC., ABC-MART TAIWAN, INC., LaCrosse Footwear, Inc. and its 6 subsidiaries is December 31. The financial statements as of December 31 are used in preparing the consolidated financial statements for the subsidiaries. All material transactions during the period from January 1 to February 28 or 29 are adjusted for in the consolidation process.

(2) Securities

Available-for-sale securities are classified into two categories, where (a) the fair value is available and (b) the fair value is not available.

- (a) Securities whose fair value is available are valued at the quoted market price prevailing at the end of the year. Net unrealized gains or losses on these securities are reported as a separate component of net assets at a net-of-tax amount. Cost of sales is determined using the moving-average method.
- (b) Securities whose fair value is not available are valued at cost and the cost is determined using the moving-average method.

(3) Inventories

Inventories held for sale in the ordinary course of business are stated at cost. The book value of inventories is reduced on the basis of declines in profitability and is determined principally by the average method for merchandise, the FIFO method for finished goods, work in process and raw materials and supplies in overseas subsidiaries, and the specific identification method for raw materials and supplies in the Company and its domestic subsidiaries.

- (4) Property, Plant and Equipment
- (a) The Company and its domestic subsidiaries

Property, plant and equipment are stated at cost. Depreciation is mainly calculated using the declining-balance method at rates based on the estimated useful lives and residual values as prescribed by Japanese tax laws, except for the buildings (excluding building facilities) acquired on or after April 1, 1998, which are depreciated based on the straight-line method.

(b) Foreign subsidiaries:

Depreciation is calculated using the straight-line method.

(5) Intangible Assets

Intangible assets, excluding software for internal use and goodwill, are amortized using the straight-line method over the estimated useful lives as prescribed by Japanese tax laws. Software for internal use is amortized using the straight-line method over an estimated useful life of five years. The useful life of goodwill is individually estimated. Goodwill is amortized using the straight-line method over the estimated useful life.

(6) Leased assets

Depreciation of leased assets from finance lease transactions that are deemed to transfer ownership of the leased property is calculated using the same method applied to noncurrent assets of which the Company has ownership. Depreciation of leased assets from finance lease transactions that are not deemed to transfer ownership of the leased property is calculated using the straight-line method with no residual value except for the finance lease transactions executed prior to March 1, 2009 which are accounted for by the same method as that applied to ordinary operating leases.

(7) Allowances for Doubtful Accounts

Allowances for doubtful accounts are provided in amounts management considers sufficient to cover possible losses on collection. With respect to normal trade accounts receivable, it is stated at an amount based on the actual rate of historical bad debts, and for certain doubtful receivables, the uncollectible amount is individually estimated.

(8) Provision for Bonuses

As a provision for the payment of bonuses to employees, an appropriate portion of the estimated total bonus payment requirement has been accounted for in the year under review.

(9) Foreign Currency Translation

All assets and liabilities of the Company and its domestic consolidated subsidiaries denominated in foreign currencies are translated into Japanese yen at the exchange rate in effect at the respective balance sheet dates. Translation gains or losses are included in the accompanying Consolidated Statements of Income.

All balance sheet accounts of foreign subsidiaries are translated into Japanese yen at the exchange rate in effect at the respective balance sheet dates except for shareholders' equity, which is translated at the historical rates. All income and expense accounts are translated at the average exchange rate for the period. The resulting translation adjustments are included in the accompanying Consolidated Balance Sheets under "Foreign currency translation adjustments" and "Minority interests in consolidated subsidiaries."

(10) Derivative Transactions and Hedge Accounting

Derivative financial instruments are valued at fair value.

(a) Hedge accounting

If derivative financial instruments are used as hedges and meet certain hedge criteria, recognition of gains or losses resulting from changes in their fair value is deferred until the related losses or gains on the hedged items are recognized. Forward foreign exchange contracts which meet specific matching criteria are translated at the foreign exchange rate stipulated in the contracts.

(b) Hedging instruments and hedged items

- Hedging instruments Derivative transactions (forward foreign exchange contracts)
- Hedged items Hedged items are primary trade payables denominated in foreign currencies which have risks associated with adverse fluctuations in foreign currency.

(c) Hedge policy

Hedging transactions are being performed to mitigate future losses on the hedged items.

(d) Assessment of hedge effectiveness

Effectiveness of hedge is assessed by verifying if the foreign currency risks on the hedged items are mitigated.

(11) Cash and Cash Equivalents

Cash and cash equivalents in the accompanying Consolidated Statements of Cash Flows are comprised of cash on hand, demand deposits, and short term investments with maturities of three months or less from the date of acquisition, that are liquid, readily convertible into cash, and are subject to minimum risk of price fluctuation.

(12) Accounting for Consumption Taxes

The Japanese consumption taxes withheld and consumption taxes paid are not included in the accompanying Consolidated Statements of Income.

(13) Application of New Accounting Standards

Effective from the accounting changes and corrections of prior period errors made at and after the beginning of the year ended February 28, 2013, the Company applied the "Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Statement No. 24 issued on December 4, 2009) and the "Guidance on Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Guidance No. 24 issued on December 4, 2009).

3. Cash and Cash Equivalents

Cash and Cash equivalents as of February 28, 2013 and February 29, 2012 consist of the following:

| | Thousands of yen | | | |
|---|------------------|--------------|--|--|
| | 2013 | 2012 | | |
| Cash and deposits | ¥ 68,852,158 | ¥ 42,167,745 | | |
| Time deposits with maturities over three months | (80,075) | (176,805) | | |
| Cash and cash equivalents at end of period | ¥ 68,772,082 | ¥ 41,990,939 | | |

4. Financial Instruments

- (1) Qualitative information on financial instruments
- (a) Policies relating to financial instruments

The Group invests its funds mainly in short-term deposits and raises funds by loans from financial institutions and issuance of bonds. Derivative transactions are foreign exchange forward contracts which are only used to avoid the risks described below. The Group does not engage in derivative transactions for speculative purposes.

(b) Details of financial instruments and associated risk

Trade notes and accounts receivable, which are mostly related to tenant sales and credit card sales of commercial facilities, are exposed to credit risk of customers.

Investment securities, which are mostly related to foreign debt securities and stocks of financial institutions, are exposed to market price volatility risk and credit risk of issuers.

Investment in non-consolidated subsidiary does not have market price and is exposed to impairment risk due to financial result of the subsidiary.

Lease and guarantee deposits, which are mostly related to leasehold contracts of stores, are exposed to credit risk of lessors.

All notes and accounts payable and income taxes payable are due in one year.

Short-term loans payable are mostly related to funds used as payment of imported goods and Long-term loans payable are mostly related to capital expenditures. Loans are generally borrowed with fixed rate and therefore, there is no interest rate risk.

Convertible bonds are related to funds used as mid-term capital investment and the term of redemption of the convertible bonds are 4 years and 11 months at the longest.

Derivative transactions are foreign exchange forward contracts which are used to mitigate the risk of currency exchange rates fluctuations for receivables and payables denominated in foreign currencies. The Company also uses derivatives as hedging instruments, which is described in Note 2. "Summary of Significant Accounting Policies".

- (c) Risk management systems relating to financial instruments
- (i) Management of credit risk (risk relating to non-performance of a contract obligation by a counterparty, etc.)

With respect to trade receivables related to credit card sales, credit risk is fairly low because counterparties are group of financial institutions. With respect to trade receivables related to tenant sales, as same as lease and guarantee deposits, Store Development Department monitors each counterparty to reduce credit risk by early identification of a possible default caused by financial trouble of the counterparty.

The Company believes that the credit risk under derivative transactions is fairly low because counterparties of derivative transactions are limited to financial institutions with a high credit rating.

(ii) Management of market risks (risks associated with fluctuations in foreign currency exchange as well as interest rates, etc.)

With respect to investment securities and investment in non-consolidated subsidiary, the Group quarterly monitors fair values as well as the financial status of issuers (counterparties).

Basic policy of derivative transactions are decided by the Board of Directors and Import Team in Accounting Department performs and manages transactions. Balance of derivative transactions and status of gain and losses are periodically reported to the Board of Directors.

- (iii) Management of liquidity risks associated with the procurement of funds (the risk of being unable to make payments on due dates)

 The Group manages its liquidity risk by adequate preparation and update of financial planning depending on the status of funds.
- (d) Supplementary explanation for fair values, etc. of financial instruments

Fair values of financial instruments are determined by market prices. If no market price is available, the fair value is based on the value that is calculated in a reasonable manner. The determination of such value contains variable factors, and the adoption of wide ranging and differing assumptions may cause values to change.

(2) Fair Value of financial instruments

Book values and fair values of the financial instruments on the Consolidated Balance Sheets on February 28, 2013 and February 29, 2012 are as follows. Financial instruments whose fair value is deemed highly difficult to measure are excluded from the table.

^{*} The value of assets and liabilities arising from derivative transactions are shown by net value. Net liabilities are shown in parentheses.

Note 1: Items relating to the calculation of the fair value of financial instruments and derivative instruments (Assets)

(1) Cash and deposits and notes and accounts receivable, trade

Given that those items are of short duration, their current value approximates their book value, and therefore the fair value is deemed to be that book value.

(2) Investment securities

Fair value of equity securities is based on quoted market prices, and fair value of debt securities is based on quoted market prices or quotes obtained from financial institutions. Additional information on securities classified by holding purpose is presented in Note 2. "Summary of Significant Accounting Policies".

(3) Lease and guarantee deposits

Given that lease and guarantee deposits are considered redeemable after a fixed period, their market value is calculated at a present value discounted across the period to maturity at the government bonds interest rates closest to the maturity date.

(Liabilities)

(1) Notes and accounts payable – trade, notes payable – facilities, short-term loans payable and income taxes payable
Given that those items are of short duration, their current value approximates their book value, and therefore the fair value is deemed to be that book value.

(2) Convertible bonds

The fair value of convertible bonds is based on market price.

(3) Long-term loans payable (including current portion)

The fair value of long-term loans payable is based on the present value, which is obtained by discounting the total of principal and interest by the interest rate that would be applied if similar new borrowings were entered into.

(Derivative transactions)

Fair value of derivative transactions is based on quotes obtained from financial institutions.

6. Leases

(1) Finance leases

Leased properties are store facilities (tools, furniture and fixtures) for retail business and leased intangible assets are software.

Finance lease transactions that are not deemed to transfer ownership of the leased property to the lessee and that were concluded prior to March 1, 2009 are accounted for by the same method as that applied to ordinary operating leases.

A summary of assumed amounts of acquisition cost, accumulated depreciation, and net book value, including the interest portion, as of February 28, 2013 and February 29, 2012 are as follows:

| | Thousands of yen | | | | | |

| As of February 28 or 29 | ¥ 236,069 | ¥ 147,762 | | |

Effective from the year ended February 29, 2012, the Company and domestic subsidiaries have applied the "Accounting Standard for Asset Retirement Obligations" (ASBJ Statement No. 18, March 31, 2008) and the "Guidance on Accounting Standard for Asset Retirement Obligations" (ASBJ Guidance No. 21, March 31, 2008). The balance as of March 1, 2011, above represents the asset retirement obligations at the beginning of the year ended February 29, 2012 as a result of application of these standards.

(2) Asset retirement obligations not included in the consolidated balance sheets

Asset retirement obligations for leasehold contracts of certain offices and stores, for which the related amount could not be reasonably estimated because the period of use of the properties is uncertain and there is no current plan to vacate the properties, are not included in the consolidated balance sheets.

For certain lease and guarantee deposits, instead of recording asset retirement obligations as liability, a reasonable estimate of the amount of deposits for rental properties, that cannot be recovered at the end of the leasehold contracts, is made, and the portion for the corresponding year is recorded as expenses. Lease and guarantee deposits that are expected not to be recovered at the end of the leasehold contracts are \(\frac{\pmathbf{1}}{4},018,497\) thousand and \(\frac{\pmathbf{2}}{659,450}\) thousand as of February 28, 2013 and February 29, 2012, respectively.

12. Commitment and Contingencies

| | | | Bank loans | | 159,397 |

13. Net Assets

Net assets comprise three subsections, which are shareholders' equity, accumulated other comprehensive income, and minority interests in consolidated subsidiaries

The Japanese Corporate Law (the "Law") became effective on May 1, 2006, replacing the Japanese Commercial Code (the "Code"). The Law is generally applicable to events and transactions occurring after April 30, 2006, and for the years ending after that date.

Under Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of its board of directors, designate an amount not exceeding one-half of the price of the new shares as additional paid-in capital, which is included in capital surplus.

Under the Law, in cases where dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in capital and legal earnings reserve must be set aside as additional paid-in capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying Consolidated Balance Sheets.

Under the Code, a company is required to set aside an amount equal to at least 10% of the aggregate amount of cash dividends and other cash appropriations as legal earnings reserve until the total of legal earnings reserve and additional paid-in capital equaled 25% of common stock.

Under the Code, legal earnings reserve and additional paid-in capital could be used to eliminate or reduce a deficit by a resolution of the shareholders' meeting or could be capitalized by a resolution of the board of directors. Under the Law, both of these appropriations generally require a resolution of the shareholders' meeting.

Additional paid-in capital and legal earnings reserve may not be distributed as dividends. Under the Code, however, on condition that the total amount of legal earnings reserve and additional paid-in capital remained equal to or exceeded 25% of common stock, they were available for distribution by a resolution of the shareholders' meeting. Under the Law, all additional paid-in capital and all legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which are potentially available for dividends.

The maximum amount that the Company can distribute as dividends is calculated based on the Non-Consolidated Financial Statements of the Company in accordance with the Law.

At the annual shareholders' meeting, held on May 29, 2013, the shareholders approved cash dividends amounting to \(\pm\x2,108,239\) thousand. Such appropriations have not been accrued in the Consolidated Financial Statements as of February 29, 2013. Such appropriations are recognized in the period in which they are approved by the shareholders.

| | | Total impairment loss | ¥ 549,577 |
| | | | |

Note: No impairment loss was allocated to leased properties for the years ended February 28, 2013 and February 28, 2012.

The Company groups its fixed assets by store, which is the minimum cash-generating unit. The book values of stores which are expected to be closed or renewed, or which incurred consecutive operating losses were reduced to recoverable amounts, and such deducted amounts were recorded as an impairment loss. Values in use were used as recoverable amounts and relevant assets were evaluated by discounting estimated future cash flows to which the 5% discount rates was applied.

19. Segment Information

(1) Overview of reportable segments

With respect to its reportable segments, the Company is able to obtain delineated financial data from its structural units. Its segments are subject to periodical review for the purpose of making decisions on allocation of managerial resources and evaluating business performance by the Board of Directors.

The Group operates shoes retail stores, "ABC-MART" all over the world and sells retail products mainly shoes. In Japan, The Company, ABC-MART, INC., operates its business, and in overseas, ABC-MART, KOREA, ABC-MART, TAIWAN and LaCrosse Footwear, Inc. (U.S.A) operate their business independently as management units. Therefore, the Group consists of geographical reportable segments such as "Domestic" and "Overseas". Each reportable segment sells shoes and other shoes related clothing and accessories.

During the year ended February 28, 2013, LaCrosse Footwear, Inc. which operates business in North America, Europe and Asia became a consolidated subsidiary. Therefore the Company changed the names of the reportable segments from "Japan" and "Asia" to "Domestic" and "Overseas", respectively. As a result, the segment information for the year ended February 29, 2012 has been prepared and disclosed based on the revised names of the reportable segments.

(2) Calculation methodology for revenues from operations, income or losses, assets and liabilities, and other items for each reportable segment

The accounting treatment of each reportable segment is in line with Note 2. "Summary of Significant Accounting Policies". Segment income as reported in this section is based on operating income. Intersegment revenues and transfers are calculated at prevailing market prices.

(3) Information on sales, income, assets and other monetary items for each reportable segment

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying consolidated financial statements of ABC-MART, INC. and its consolidated subsidiaries, which comprise the consolidated balance sheet as at February 28, 2013, and the consolidated statement of income, comprehensive income, statement of changes in net assets and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of ABC-MART, INC. and its consolidated subsidiaries as at February 28, 2013, and their financial performance and cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.
